

## UH Tableau Scavenger Hunt

11-19-2020

1. **Download** an Excel Crosstab of Enrollment by Race/Ethnicity.
2. **Retention and Graduation:** How many and what percentage of the Hispanic women in NSM who are part of the Fall 2013 FTIC Cohort graduated from NSM in six years?
3. **Create a subscription** for a dashboard that you use often (or that you just really enjoy).
4. **Expanding Hierarchies and Sorting:** Go to UH IR Statistical Handbook Student Enrollment dashboard. Find a visualization that shows Total Enrollment for Fall 2019 by College and Department. Sort the visualization in descending order by department enrollment within each college.
  - a. Questions:
    - i. Which is the largest department by enrollment in NSM?
    - ii. Which department has the largest enrollment across all UH colleges and what is the largest plan in that department?
5. **Minors:** How many business majors have a minor in Spanish in fall 2019?
6. **Resetting the dashboard:** The Provost has asked you to provide a table of total enrollment between Fall 2015 and Fall 2019. She is only interested in full-time, Hispanic, female undergraduates from Harris County. After you filter the custom table, she changes her mind and wants to see all student enrollment with no specific filters. What is a one-click way of resetting the view without select (All) for each filter?
7. **UH Branding for dashboards:** We showed you how to find UH branding colors. Using the same website, where can you download logos and icons to use in your dashboards?
